László Végel: Atonement – A Diary Novel

176 pages

When László Végel's books are getting more and more successful in Germany, it is time we started to discover him here in Hungary. *Atonement – A Diary Novel* is the first title of the series of his oeuvre. The writer, who has spent the recent past in Berlin, shares the diary of an intelligentsia who is wondering about the past, present, and possible future of the European existence. Its arguing hero is submerging in the cultural milieu he could only dream of. The novel is a sad but adorable diary full of nostalgia for the painful past.
